

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Methodologies to support weak students and encourage bright students

Guidelines to identify Weak students:

The Mentors periodically monitors the progress of their students and identify slow learners scored less than 50% marks in their Mid Examination.

MENTORING SYSTEM

Identification Criteria	Actions Taken
Students securing < 50% of marks in Internal Assessment.	Mentor assess the progress regularly, advising them to attend classes and get support in all aspects.
Students with less attendance.	Make up classes are conducted.
Slow learners with poor understanding skills	Conduction of Remedial Classes

Guidelines to identify bright students:

The students with good academic record are identified as bright students. They are motivated to continue their performance in academics, take up mini projects in their interest areas and participation in National/International conferences, workshops, to take up advanced certification courses which supports in career building.

Identification Criteria	Actions Taken
The students with good academic record.	<ul style="list-style-type: none">➤ Rewards to the students as a token of appreciation in their academic excellence.➤ Take up mini projects & encourage to participate in inter college national/international fest.➤ Motivate to take competitive exams
