DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Mentoring System

- A well-defined process is present in the department for *monitoring*, guiding, and supporting weak students (slow learners)

- The faculty will take Special Care in monitoring the performance of weak students (slow learners) and the deviations from studies is identified by the respective section in- charges and if required remedial actions are taken.

- Responsibility and motivation from both parents and faculty will produce, a positive attitude and will help to overwhelmed the failures and hurdles faced by the weak students (slow learners).

- Additional coaching is arranged to the weak students (slow learners) through Remedial classes and simplified examination-oriented coaching along with the supply of material.

- Faculty will conduct the Backlog Reduction Program (BRP) for the students of slow learners who have 50% above backlogs.
