

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Project Laboratories

- The students are given access to carry out their academic and research projects in this project laboratory.
- The project laboratory has sufficient computers to carry out their project work.
- All the systems are equipped with sufficient hardware and latest soft-wares to run program specific curriculum and off program curriculum.
- All the computers in the lab are connected to the internet and the students can browse the internet during the course of project work.

S.no	Name of the laboratory	Number of students per setup (batch size)	Name of the important equipment	Utilization
1	Research / Project Laboratory	36	860 MHZ PLL Antenna Training Systems. Embedded system trainer kits ATLYS SPARTAN 6 FPGA development kit DSO Computer Systems Software: MATLAB and PSPICE software, XILINX 14.7, TASM, KEIL 4	UG/PG students, Research Scholars and Faculty members utilize for their mini projects, projects, and research activities.
